DEFINITIONS:

Youth means: a person residing in the State of Montana who has not yet attained 18 years of age. EXCEPTION: SED youth may include an individual who has not yet attained 21 years of age if the person is enrolled in a special education program. (ARM 37.89.103(17)).

Custody means: the individual (parent, relative) or entity (Child and Family Services (CFS), Department of Corrections (DOC), Tribal Court or Social Services, etc. who has the legal authority and responsibility to provide for the day to day needs of the youth, authorize treatment or placement, and is responsible for payment for treatment of the youth.

- a. The youth cannot be considered to be living with the parent for CMHSP, when custody is being altered so that a parent's income or resources are not considered in a Medicaid determination or a C.H.I.P. application.
- b. When youth court assumes responsibility for supervision of a youth, but the financial responsibility remains with the parent, the child is considered to be living with the parent if the placement is temporary and the plan is for the youth to return home.
- c. When a youth is residing with a relative (within 5th degree), the youth is considered to be living with the parent.
- d. When a court has terminated the rights of the parent and granted responsibility to a state agency, Tribal agency, etc., the youth cannot be considered to be living with the parent for CMHSP.

Temporary means: the youth is residing outside the home for a period of less than 90 days and the intent set forth in the plan is for the child to return home. When the child is placed into therapeutic out of home treatment, e.g. RTC, group care, foster care, and the intent and plan is for the youth to return home and intent is actively pursued, and the parent retains financial responsibility, the youth is considered to be living with the parent.

HOW TO APPLY FOR PART A:

To be eligible for CMHSP, a two-step eligibility process is followed. The first step is to determine if the youth's family gross income meets the financial limits of the program. When the youth is determined financially eligible, the second is to determine if the youth meets the requirements of a youth with serious emotional disturbance (SED).

Step 1:

1. A youth must be determined not eligible for Medicaid.
2. If ineligible for Medicaid an application for the C.H.I.P. program must be submitted. The applications are available in all Montana communities, at county health departments, health care facilities, WIC offices, Head Start facilities, Indian Health Services and many more community locations. Applications are also available by mail: call 1-877-KidsNow (1-877-543-7669). Completed applications are submitted to: C.H.I.P., PO Box 202951, Helena, MT 59620. A personal interview is not required. Please allow up to six (6) weeks for your application to be processed.
3. In order for the application to be referred to Children's Mental Health Bureau for consideration for CMHSP, the applicant must complete question on page one (1) of the application by answering 'yes' to the question: "Does a child in your family need or receive treatment for an emotional condition."
4. When an application is received that has not been reviewed by C.H.I.P. eligibility staff, the application will be forwarded to C.H.I.P. for review. In order for the application to be referred to Children's Mental Health Bureau for consideration for CMHSP, the applicant must provide the name of the child and the treatment provider on page one of the CHIP application
5. C.H.I.P. eligibility will determine if the youth is within 150% of the federal poverty guidelines for C.H.I.P. If a youth's family gross income is not within 150% of the federal poverty guidelines, the youth is not eligible for CMHSP.
6. When youth is determined eligible but is not enrolled in C.H.I.P., the application is forwarded to CMHSP for processing.

Step 2.

1. Current clinical information in the form of a psychological assessment with DSM-IV diagnosis (completed by a licensed psychologist, social worker, professional counselor), and social history is forwarded to the Children's Mental Health Bureau. Current means completed or updated within the past 180 days (6 months). The Bureau will determine if the youth meets the criteria for serious emotional disturbance (SED) pursuant to the SED definition set forth in ARM 37.86.3702(2). Additionally, CMHB will also determine if the youth meets the requirements for enrollment into CMHSP.
2. Written response containing the Bureau's decision will be sent to the applicant within five (5) workdays of receiving the application and the current psychological information set forth in 1 above. If the information is incomplete or is not current, CMHB will request correction of the incomplete information and the time for completion of the determination will be suspended until adequate information is received by CMHB. The request for additional information will be in writing and set forth a date by which the information is to be provided.

3. The application will be denied if the youth does not meet SED definition.
 - a. When additional or corrected information is requested and not received by the date specified, the application will be denied for lack of timeliness. The applicant can request an extension of the time line to respond for good cause. The request must be in writing and the extended time period agreed to by CMHB. Request for additional time is limited to one extension request.
 - b. When the youth meets the eligibility for CMHSP, but the CMHSP enrollment cap has been reached and/or the funding cap has been reached, the application will be approved but enrollment denied because the cap has been reached. The applicant will be placed on a waiting list based upon a first come first serve basis. If funding becomes available the applicant will be moved from the waiting list to enrollment in CMHSP. The applicant will be notified in writing of the status change.
4. The effective date for eligibility is the date the application is received by C.H.I.P. Eligibility for CMHSP is not retroactive.
 - a. Eligibility may be for a period not to exceed one year depending upon the funding available for the CMHSP.
 - b. Eligibility may be for a period not to exceed one year unless the enrolled members family gross incomes rises above 150% of the federal poverty level, or there are changes in clinical conditions that may result in the enrolled youth no longer meeting the SED requirements.
 - c. Applicants and their legal guardian are responsible to inform CMHB of any change in their financial situation that results in the family gross income rising about the 150% federal guideline.
 - d. Notice of financial changes is to be in the form of a new application submitted to CMHB within 5 workdays of such change being identified.
 - e. Notice of clinical changes are submitted in writing to CMHB.
 - f. Notice is sent to CMHB at PO Box 202951, Helena, MT 59620-2951.
5. When a youth enrolled in CMHSP is determined to no longer meet eligibility requirements a written advance notice of 10 days will be provided notifying the youth and legal guardian of termination of CMHSP services. The 10 days will be from the date of the written letter. Notice will be through regular U.S. mail to the address listed on the application.

ELIGIBILITY RENEWAL:

1. A renewal form will be sent to the enrolled member 30 days prior to expiration. This will be used to determine financial and SED eligibility.
 - a. If the renewal application is received within 30 days following expiration, the renewal will be effective retroactive to the date of expiration, with no lapse in eligibility.
2. If renewal is not completed within 30 days of expiration, eligibility will be terminated.
 - a. If the renewal application is received after the 30-day period, and if the applicant is determined to continue to meet financial eligibility, the eligibility will be effective the date the application was received by CMHB and there may be a gap in coverage. CMHSP is not responsible for expenses incurred during the gap.
3. An updated new clinical assessment and psychosocial history that includes current functioning is required for a renewal.

APPEALS AND REAPPLICATION:

1. If an applicant disagrees with the determination, the applicant may request reconsideration from the CMHB. The request must be submitted within 30 days of the date of the letter notifying the applicant of the determination.
2. A new application may be submitted anytime the applicant's:
 - a. family gross income decreases sufficiently to fall below 150% of the federal poverty level,
 - b. and/or the applicant's condition changes sufficiently to meet the SED requirements.

If the applicant is then found eligible, the effective date will be the date the subsequent application was received by CHIP.

3. When the reapplication is for financial reasons, and if a previous clinical assessment was completed within six months of the second application, a new clinical assessment and psychosocial history is not required.
